MEMORANDUM FOR: Chief, CIA/Photographic Analysis Division, NPIC

SUBJECT: Recruitment Assistance

1. Extensive recruitment efforts will be requested of the Field Recruitment Branch, Personnel Operations Division, OP, to meet NPIC personnel needs for Fiscal Year 1963. It is essential that we provide every assistance in this effort and I am therefore requesting that each of the major NPIC components and CIA/Photographic Analysis Division provide the following information no later than 1 May 1962:

A. Listing of potential recruitment sources - academic, governmental (civilian and military) and commercial or industrial - which might be expected to provide candidates of interest to the component concerned.

B. Listing of professional, technical and trade publications in which advertisements inserted through Office of Personnel sources might be expected to produce applicants.

C. Preliminary listing of component representatives who could be made available for brief trips to work in conjunction with field recruiters in interviewing and assessing applicants.

2. This Office is scheduled to confer with the assembled field recruiters on 3 May 1962 and it is necessary to the planning for a concerted effort that the information requested be available for presentation at that time.
